Index to Gleanings in Bee Culture

Volume LXXV, 1947

In using this index the reader should not fail to note that it is divided into four departments, namely: General, Editorials, Contributors, and Illustrations. The index of General includes everything except Editorials, Illustrations, and Contributors.

GENERAL

A

Achord, W. D., death of 645
Acquisitive instinct 468
AFB combs, wood alcohol to spray 295
prophylaxis against 18
selective breeding and resistance to 593
Agricultural chemicals, relation to beekeeping 648
Alfalfa crop in Utah, bees pollinate 136
Alighting board for bees 276
All's well that ends well 392
Alpine Carniolans in S. Rhodesia 78
Amateurs, our indebtedness to 272
American Honey Institute News Notes 43, 107, 168, 219, 279, 359, 419, 473, 531, 592, 722
teaching 593
Anise-hyssop 8
Annotations 18, 78, 145, 209, 272, 340, 399, 468, 537, 593, 665, 732
Ants, getting rid of 596
Apiary Inspectors, resolutions adopted by ..155
notebook, from the ..513, 705
Apricot whip with honey 14
Arizona 27, 152, 552
bee industry 471
Arsenicals, substitutes for 732
Asked and Answered 40, 92, 167, 232, 294, 339, 404, 474, 542
Auxiliary, National, meeting in Tampa .. 6

B

Back lotters vs. big beekeepers 193, 272, 513
queen rearing 454
Baily, Seymour E., new Ohio inspector 288
Bear and more bear 133
don't try to fence them, trap them 652
Bee can sting only once 40
culture and research in U.S.A. 593
escape, cone 22
industry in Arizona 471
Beekeepers' associations, how to build up 343
backlot vs. commercial 193, 272, 315
short course in Penn. 720
winter work for 710
young, need for 272
Beekeeping in Cyprus, glimpse of 534
in India 210
in Mexico 586
in Norway 522
in Palestine 80, 145
in South Africa 660
relation of agricultural chemicals to 648
within the law 331
Bee pasture problem 7
regulations, new Georgia 491
space, the correct 730
stings for rheumatism 542
Bees and geese in same yard 295
attendant, released from queen cages 85
booster 474
clean cut comb honey 663
destroyed by hurricane 712
do build burr comb 518
don't like sorghum molasses 167
feeding honey to 404
for strawberry culture 167
gathering fruit juices ..232
getting out of supers ..406
how to get from bee tree 233
from side of building 233
importation of into Canada 470
in barn, inadvisable 404
increase profits in commercial alfalfa seed production 391
kept in city or town ..405
moved a short distance 542, 667
moving in winter 92
moving into cellar 666
number needed for pollination 295
outdoor feeding of 233
proper time to gas 20
queenless, uniting with a weak colony 405
quit working in supers 475
refuse to work in supers 405
returning to life 209
toads destroying 20
young, and climate extremes 388
Beeswax, origin of 275
what about it today? ..708
Birds destroying queens 85
Black bees 396, 468
Booster bees 474
Bottom-board-cover is a saving 68
improved 70
Bread and butter pickles, honey 466
honey fruit bran 142
British bee culture 399
British Columbia 354
experiences with sulfa 537
Brown sugar, bees would not take 233
Buckeye, California, poisonous to bees 339
Building siding, how to get bees from 233
Burr comb, bees do build 518
Butter, honey plum 466

C

Cake, honey almond cream 204
honey devil's food 204
honey spice 204
let's bake 204
strawberry picnic 398
upside down honey pear 267
Cakes, cup, honey gingerbread with sauce 267
California 25, 99, 149, 223, 283, 351, 409, 483, 547 611, 675, 739
buckeye poisonous to bees 339
Canning time 466
Cans, making safe for future use 233
Capping melter, N. Z., does not injure honey 532
Carameis, honey nut 719
Carbolic acid to remove honey 40
Carniolans, Alpine, in So. Rhodesia 78
swarm control for 12
Cellar, feeding bees in ..731
moving bees into 666
Cherry cobbler, honey 74
Coaster wagon for hauling supers 597
Cocoa drops, frosted honey 590
Colonies, equalizing 537
exchanging positions of weak and strong 475
facing east or west may starve during winter 342
from packages swarming first season 607
per acre of clover 167
reaching peak of strength before beginning of main flow 294
winter loss from and related factors 656, 714
Colony, does the queen make? 450
how to manipulate 598
lazy, what to do with 667
strong, hard to kill 514
Colorado 104, 150, 410, 487, 680
"Coloration of Anther and Corbicular Pollen" 625
Comb, artificial, for Apis dorsata 78
burr, bees do build 518
cut, putting up 606
frames for 342
good, life of 92
honey, cut, bees clean 663
production, experience in 324
Combs, old, simple method of melting ..339
Commercial vs. backlot beekeepers 193, 272, 513
Communication of honeybees, capacity of ..460
Cone bee escape 22
Conference of fruit growers and beekeepers 15
Connecticut, wintering in 641
Cooperatives, honey producers', to the front 341

XUM

Covers, removing to cure robbing 724
Cranberry filled honey coffee cake 719
tarts 654
Cream filling for cake ..204
Crop wasn't what I expected 389
Cyprus, beekeeping in, a glimpse of 534
the everlasting 598

D

Death's head moths 685
Disease control, federal system of 593
law, Florida, amended 415
Disinfecting hive parts ..474
Doughnuts, honey 590
honey bran 14
Drifting, concerning 585
Drone comb, do bees prefer it for storage of honey? 386
comb, is it stronger than workers? 386
Drone more important than queen 18
trap 70
trap, revised 211

E

Easy to prepare and easy to eat 267
EFB, predisposition to 468
80 years among the bees 42, 87, 144, 208, 338, 403, 469, 554, 727
Electric fences for bear 135, 406
Entrance, proper size opening for 607
upper, location and size of 730
upper, where shall they be? 470
Equalizing stocks 537
Extracting equipment, improvised 646
Extractor hand crank, throw away 400

F

February is the party month 74
Federal system of disease control 593
Feeding bees in cellar 731
dry sugar 145, 263, 340
honey to bees 404
in July, necessary 528
of bees, outdoor 233
Fences, electric, to keep out bear 135, 406
Fig Newtons, honey 527
Florida 226, 548
disease law amended ..415
Food chamber, adding a shallow or deep 232
Foulbrood—cure for? 10
Foundation, full sheets of, reduce swarming 542
Frames for comb honey 342
French beekeepers receive queen bees from U.S.A. 651
Fruit growers and beekeepers' conference 15

G

Gadgets, homemade, are useful 70
Gas bees, proper time to 20
Geese and bees in same yard 295
Georgia bee regulations, new 491
Gingerbread, peach honey 590
Goldenrod honey 732
Government price support 130

H

Heating of hives, controlled 268
Hive and the Honeybee ..340
panel heat in 85
parts, disinfecting 474
scent, and queen 665
stands, indestructible 70
three advantages in properly locating 534
weights 70
Hives facing south 342
heating of automatically 268
national 732
painting 653
putting away from bear 606
should they face south 660
spacing 272
Holland, visitors from 39
Homemaking chatterbox 35, 94, 166, 230, 297, 358
Honey almond cream cake 204
amount of surplus from one colony 665
apricot pudding 654
apricot whip 14
attracts hummingbirds 517
cream filling 204
Honeybees, adult, importation of prohibited 621
capacity of communication in 460
pollinate Utah alfalfa crop 136
products to be developed by research 713
Honey bran doughnuts .. 14
bran kuchen 142
bran muffins 527
bran treats 142
bran waffles 183
bread and butter pickles 466
can, 5-gallon, still useful 706
cherry cobbler 74
cherry ice cream valentines 74
chocolate souffle with sauce 267
cinnamon rolls 142
cocoa drops 590
coffee cake, cranberry filled 719
controlling granulation of 92
devil's food cake 204
dividends for school lunch 527
doughnuts 590
Fig Newtons 527
flow, how to detect 475
fruit bran bread 142
gingerbread cup cakes with apricot raisin sauce 267
goldenrod 732
heavy flow in September 528
house, building a 294
house, ideas for 451
in supers, utilizing small amount 41
lemon chiffon tarts 398
Lincoln logs 74
nut caramels 719
of a business 393
party pudding 398
pear upside-down cakes 267
plants, drouth resistant 18
plants, moving, instead of bees 588
plants program for all America 260
plants, to get up 456
plants, waste land devoted to 8
plum butter 466
poisoning 76
popcorn balls 719
produced without queen excluders 405
producer cooperatives to the front 341
quality, buyers look for 131
quarantine examination of 78
removed by chlorine cloth 78
removed with carbolic acid 40
resolutions 14
rosemary 199, 516
small amount in combs utilized for feed 404
sour cream dressing .. 14
spice cake 204
spice twists 332
straining and processing 730
strawberry preserve 332
surplus, clover acreage necessary for 232
surplus, from package bees same year 295
treats for the holiday season 719
Honeys of different countries 399
Horizon, a new, beckons 1
Hummingbirds attracted by honey 517
Hurricane in Louisiana destroy bees 712

I

Ice cream valentine cherry honey 74
Ideas for the honey house 451
Illinois 485
Cook-DuPage Asso. story of 108
Importation of adult honeybees prohibited .. 621
of bees into Canada 470
of bees on combs constitutional 711
of queen bees into U.S.A. 277, 340
of queens, cessation to prevent disease 457
Improvised extracting equipment 646
Increase and requeen, best time to 92
in early spring pays .. 65
India, beekeeping in 210
Inspection laws, uniform 401
Installing package bees 399, 468
Instinct, the acquisitive 468
International cooperation 272
Introducing queens by onion method 22
Iowa 30, 103, 355, 412
Irish Bee Journal 78

J

Jar, contents of a 3-lb. ..667
July jamboree 398
June days, food for 332
Just News 44, 93, 156, 213, 289, 357, 420, 476, 541

K

Kansas 227, 549
Kentucky, rearing queens in 262
Knot hole, unusual bee behavior at 596
Kuchen, honey bran 142

L

Law, beekeeping within 331
Laws, inspection, uniform 401
Laying workers and drone laying queens 84, 145
workers, how to deal with 474
Let the bees do it 385
Letters, 250 received and answered 84
Lincoln logs, honey 74
Live and learn 19, 79, 143, 205, 273, 333, 402, 467, 530, 591, 655, 723
Lumber for hives, prospects for more 130

M

Maine 421, 680
Manitoba 101, 414
Market, are beekeepers pricing themselves out of? 131
Marketing as important as production 274
opportunities open 132
successful 340
Massachusetts ..153, 486, 743
Mead an international drink 732
Merrill, Joseph Henry, death of 38
Mexico, beekeeping in 586
Michigan 285
apiary law constitutional 711
Miller's Dr., method of getting most honey 706
Minnesota 354, 678
Mississippi 226, 553
Missouri 484
Montana 29, 681
Moths, death's head 685
Moving bees a short distance 542, 667
in winter 92
bees into cellar 666
Muffins, honey bran 527

N

National Federation of Beekeepers' Assns. ..425
at Salt Lake City 685, 724
National hives 732
Nebraska 28, 353, 678
Nectar and pollen, value of early sources of ..147
New Jersey 102, 488, 744
largest field meeting ..663
New York 102, 411, 487, 552, 745
North Dakota 225, 612
Norway, beekeeping in ..522
Nosema, my hunch concerning 464
prevalent in N. Z. 276
Now I have seen it 268
Nucleus, meaning of 404
N. Z. capping melter does not injure honey 532

O

Observations of unusual conditions 528
Odor, peculiar, in apiary 40
Ohio 153, 550
Onion method, introducing queens by 22
Ontario 31, 105, 154, 228, 287, 356, 414, 490, 553
Opossums found and dispatched 211

P

Package bee shipments in 1946 231
amount of sugar needed by 339
bees 321
brushing, pouring, or spraying syrup on cages containing 474
cage, outer cover for ..272
installing 399, 468
Packages flown overseas 465
booster 667
method of hiving 406
shipped with screen partly closed 210
Packing bees for winter 577
